Project Development Phase
Model Performance Test

Date	9 Novemeber 2023
Team ID	Team-591034
Project Name	Snack Squad App
Maximum Marks	10 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

1. **APP Launch time**

   • Success: The app launches within a reasonable time frame, ideally under 3 seconds, providing a quick and smooth start for users.

2. **UI Responsiveness:**

   • Success: User interactions, such as button clicks and navigation, feel instantaneous without noticeable delays or lags.

3. **Frame Rate:**

   • Success: Animations and transitions maintain a consistent frame rate of 60 frames per second, ensuring a visually appealing and smooth experience.

4. **Memory Usage:**

   • Success: The app demonstrates efficient memory management, avoiding memory leaks and keeping memory usage within acceptable limits.

5. **Network Performance:**

   • Success: Network requests for order and delivery updates are fast and reliable, contributing to a seamless user experience.

6. **Scrolling Performance:**

   • Success: Scrolling through lists or grids of snacks is smooth, with no jerkiness or lag, enhancing the overall usability of the app.

7. **Battery Consumption:**

   • Success: The app minimizes battery consumption, ensuring that it doesn't excessively drain the device's battery during regular usage.

8. **Error Handling Performance:**

   • Success: The app effectively handles errors, providing informative and user-friendly error messages without disrupting the overall user experience.
